Instructions

Below, you will find detailed instructions on how to fill in the different fields, see Instructions – Application for Credit Transfer. This form is a claim for previous learning credit for one course. Please take your application to the departmental secretary of the department your claim refers to. See “Addresses” below.

Documents to include

When the credit transfer is based on previous qualifications, the following documents must be included:

- Course certificate or certificate of enrolment
- Course syllabus including required reading

When the credit transfer is based on other qualifications, the following documents must be included:

- Certificate of employment with details on duration
- Job description
- Reference to direct supervisor
- Decision/preliminary decision on prior learning (where appropriate)

Apart from these documents, the applicant must include other relevant certificates on demand to complete the application. If your documents are in other languages than Swedish, you must provide us with an official translation to Swedish as well as the original documents (exceptions can be made by the decision-maker). In the case of exchange students, there may be a mandatory examination of your independent project at Mid Sweden University, even if the project already has been presented and approved at the host university (this does not apply to the B-level).

Overlap

When the degrees are awarded, we make sure that your education does not overlap and the credits transferred may be changed accordingly. Overlap means that courses with the same content are listed with the number of credits that remain after the credits for the course with mutual content have been deducted. In other words, only unique credits are specified in the degree certificate.

Validity and appeal

The validity of the decision is guaranteed only at Mid Sweden University. Decisions on credit transfers may be appealed at the Higher Education Appeals Board (ÖNH). Any appeal has to be in writing and be directed to the Higher Education Appeals Board/ÖNH. This letter must state which decision you are appealing against, what change you desire and the reason for that. Please make sure the letter contains your signature, clarification of signature, your Swedish civic registration number, postal address and telephone number. Please include any other documents you find significant and send the appeal to the department that sent you the decision. The departmental secretary will forward your appeal to the decision-maker. Please note: the appeal must reach Mid Sweden University within three weeks of the date when you received the notification of the decision.
