

**Course Syllabus:****Environmental Engineering MA, Climate Change, Impact and Action Strategies, 7.5 Credits****General data**

<b>Code</b>	MÖ003A
<b>Subject/Main field</b>	Environmental Engineering
<b>Cycle</b>	Second cycle
<b>Credits</b>	7.50
<b>Progressive specialisation</b>	Second cycle, has only first-cycle course/s as entry requirements
<b>Answerable department</b>	Faculty of Science, Technology and Media
<b>Established</b>	2007-12-14
<b>Date of change</b>	2015-03-04
<b>Version valid from</b>	2013-08-15

**Aim**

The objective is that the student should acquire an understanding of how the global climate system responds to anthropogenic influence, how society may adapt to climate change and how society may mitigate the effects on the climate system.

## Course of objectives

After the course the student should be able to:

- give a brief description of the global climate system
- describe the scientific foundations of anthropogenic influence on the global climate system
- give an account of the consequences of anthropogenic influence on the global climate system
- describe different ways of adaptation to climate change in relation to sustainable development and equity
- describe and analyse different strategies for reduction of the net emissions of greenhouse gasses
- describe methods for dealing with uncertainty in models, scenarios and mitigation strategies.

## Content

The course gives a description of the scientific understanding of anthropogenic climate change, its causes and possible adaptation and mitigation strategies.

## Entry requirements

Degree of Bachelor of at least 180 Credits (180 ECTS) or equivalent, with at least 30 Credits (30 ECTS) in Environmental Science or Environmental Technology/Engineering.

Proven language proficiency in English (English course B), for example shown from one of the following international English tests:

- TOEFL with a minimum score of 575 on a paper based test and not below 4.5 on the TWE
- TOEFL with a minimum score of 90 on internet based test and not below 20 on the TWE
- IELTS Academic Training with a minimum overall score of 6.5 and a minimum score on the specific parts of at least 5.5.

## Selection rules and procedures

The selection process is in accordance with the Higher Education Ordinance and the local order of admission.

## Teaching form

The teaching is given as lectures, seminars and various exercises. Computer applications may be included. Attendance may be compulsory for some of the teaching.

## **Examination form**

A written test will be given at the end of the course.

Assessment criteria for this subject can be found on [www.miun.se/betygskriterier](http://www.miun.se/betygskriterier).

## **Grading system**

The grades A, B, C, D, E, Fx and F are given on the course. On this scale the grades A through E represent pass levels, whereas Fx and F represent fail levels.

## **Course reading**
