

Business Innovation Seminar

Sundsvall 4 februari 11.00-12.00

Mittuniversitetet sal O102

The future for Valmet and the forest industry

Marita Niemelä, VP Strategy, Valmet Pulp and Energy Business Line

Docent Dr. Marita Niemelä has over 25 years of experience in industrial sectors ranging from oil refining and chemical industry to forest industry. She has broad insight and track record in energy, fuels and industrial chemicals with specialization in catalytic processes. Her recent focus has been in new technologies mainly in the areas of bioenergy, biofuels and biorefining. Marita Niemelä joined Metso Pulp, Paper and Power in November 2012 as a Vice President Bio-Technologies. In October 2013 she was appointed as Vice President, Strategy in Valmet Pulp and Energy. She leads the strategy development of the business line with focus on biomass conversion technologies and environmental systems.

The Seminar will be in English this time
